What participants have said:

"I have never learned something so relevant to my life. I can't think of many questions more important to ask ourselves than 'Who am I? Why am I here? And Where am I going,' because each of these questions reveals wonders about us being created in the image of God. Theology of the Body beautifully answers each of these questions and provides humanity an understanding of the MEANING OF LIFE!" -Student Participant

"Unlike any other TOB class/material I've been exposed to, Jennifer's material comes straight from John Paul II's original work. You'll be mind-blown as the material unfolds." -Bridget W.
